Cooling/heating coil

# CW060X12004R0ID

**CW060X12004R0ID**

External cooling coil for water connection. Available with round or rectangular connection to match our range of compact VEX units.

## PRODUCT BENEFITS

- External cooling surface (water)
- Lowers the temperature of the incoming air
- Can be controlled via EXact2 or via other automation
- Can be supplied in insulated or non-insulated casing

### Product description

External cooling coil for water connection – available in insulated or non-insulated housing. The cooling coil is used to decrease the temperature of the supply air.
