# HMI3350TOUCH
**EXCON+ 3.5» HMI touch display**

## Reference arguments

External manual COMMAND (Touchscreen) Cable-connected Unit with large backlit Display. Simple Touchscreen COMMAND. All settings are entered in the Graphic Display. The Touchscreen Terminal is equipped with a Touchscreen with a 3.5» colour Touchscreen.
Navigation and programming with the Touch Menu are available in nine languages.
There are three user levels for access to the Unit.
Each level contains only the relevant information, which reduces the risk of user errors. Unit alarms have the highest priority and are indicated by a red flashing light.

The Unit is included in the standard supply.
- PROTECTION class IP20, ABS
- Supply voltage 24 V DC ±15 % via Modbus
- Modbus RS485, 115 kBaud, 24 V DC, RJ12- Plug (6P6C)

BMS communication functions:
- BACnet TCP/IP (BACnet BTL certificate)
- Modbus TCP/IP
- Modbus RTU (RJ12- Plug)
