

## MIO2-MODUL MIO2 module

### Reference arguments

Connection of e.g. CO<sub>2</sub>, humidity or motion detector sensor or TIMER BUTTON for the EXact2 control system.

How many sensors can be connected per MIO2-module?

Sensors that generate 0-10 V signal (e.g. CO<sub>2</sub> or RH sensor):  
1 sensor per MIO2 module

Sensors that generate an ON/OFF signal (e.g. PIR sensor or TIMER BUTTON):  
4 sensors connected in parallel per MIO2-module.

Connects to VEX via modbus.
